Test Plan

Scope

All five modules, the API, and the UI.

Types of testing

Type	Tool or file
API testing	`scripts/test_api.py`
Full check	`scripts/final_check.py`
Model evaluation on own images	`evaluate_own.py`
Confidence threshold tuning	`scripts/threshold_sweep.py`
Freshness debugging	`debug_freshness.py`
Environment check	`check_env.py`
Manual UI testing	browser at localhost:5173

Test data

- Food images in `tests/` (for example `apple.jpg`)
- Non-food image (`chair.jpg`) to check rejection
- Own images from `own_train.zip`
