## Screenshots

Add images to the `screenshots/` folder:

- Food Recognition result
- Freshness Detector
- Hygiene Monitor
- Smart Kitchen
- Meal Planner result

## Demo script (3-5 minutes)

1. Introduce the problem (30 s).
2. Food Recognition: upload a photo, show dish, calories range, macros, health score (60 s).
3. Freshness Detector: show a fresh and a spoiled example (45 s).
4. Hygiene Monitor: tick checklist items and show the score (30 s).
5. Smart Kitchen: add an item with an expiry date and request a recipe (30 s).
6. Meal Planner: fill the profile and generate a plan (60 s).
7. Close with limitations and future scope (30 s).
